The „Human Resources Development in 19 rural communities from Center, South-East, South Muntenia Regions – PSCR2” project is implemented in 19 communities from the 19 counties of three development Regions from Romania: Center, South-East and South-Muntenia.

The project has two important dimensions – the development of the human resources and of the rural communities and health promotion, specifically individual and workplace health promotion – combined in a set of activities dedicated to a few categories of beneficiaries, such as rural companies managers and employees, unemployed, persons in search of a job, people occupied in the subsistence agriculture.

➢ The Funding Sources

The „Human Resources Development in 19 rural communities from Center, South-East, South Muntenia Regions – PSCR2” project is co-funded under the European Structural Funds Programme – Operational Sectoral Programme Human Resources Development.

➢ Project’s Partnership

Romtens Foundation, as beneficiary, the Italian partner, Dipartimento di Medicina Sperimentale, UNIVERSITA DEGLI STUDI DI PERUGIA, and SC DAD EXPERTISE SRL, SC EURO DSM Management si Consultanta SRL and Asociatia Europa pentru Dezvoltare Umana (Association Europe for Human Development), as the Romanian partners, signed a Partnership Agreement for the implementation of the project.

➢ Project’s General Objective

Sustainable development of the human resources’ quality in the rural area from Center, South-East and South-Muntenia Regions, in order for them to be able to adapt to a dynamic, flexible and inclusive labor market, is the main project’s objective.

➢ Project’s Specific Objectives

SO1: Enhance the access to non-agricultural occupations by facilitating the participation of persons from rural areas in Center, South-East and South-Muntenia Regions to programs related to professional informing and counseling and career counseling.

SO2: Increase the professional competences in non-agricultural fields for the persons in the rural area from Center, South-East and South-Muntenia Regions, through their participation to 6 specialization programs, specifically training courses on the following topics: Project Manager, Entrepreneurship Competences, OSH Inspector, OSH Specialist, HR Inspector/Referent, HR Manager, as well as a qualification training course for Trade Workers.

SO3: Facilitate the integration on the labor market of persons in the rural areas from Center, South-East and South-Muntenia Regions, through mediation and job placement programs.

SO4: Increase the information level related to maintaining a healthy lifestyle, as well as regarding the observance of the OSH measures and provisions, both at the workplace, and in the subsistence agriculture households, for the persons in the rural areas from Center, South-East and South-Muntenia Regions.

SO5: Increase the efficacy and efficiency of the project’s activities implementation.
Major Project’s Activities

1. Project Management activities;
2. Set-up of 19 local offices of the project in the 19 identified communes;
3. Information and career counseling for managers and employees;
4. Information and career counseling for other target groups (unemployed, persons in search of a job, persons occupied in the subsistence agriculture);
5. The provision of training courses for 19 local experts (Project Manager and Entrepreneurship Competences);
6. The provision of training courses for the project target groups – managers, employees, unemployed, persons in search of a job, persons occupied in the subsistence agriculture (Project Manager, Entrepreneurship Competences, OSH Inspector, OSH Specialist, HR Inspector/Referent, HR Manager);
7. The provision of one qualification training course – Trade Worker;
8. The provision of mediation and job placement programs;
